TIME PERIODS FOR FILING A REPLY TO THIS NOTICE:

1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a Quayle action. If any of above boxes 1. to 4. are checked, the correction required is only the **corrected section** of the non-compliant amendment in compliance with 37 CFR 1.121.

Extensions of time are available under 37 CFR 1.136(a) only if the non-compliant amendment is a non-final amendment or an amendment filed in response to a Quayle action.

Failure to timely respond to this notice will result in:

Abandonment of the application if the non-compliant amendment is a non-final amendment or an amendment filed in response to a Quayle action; or

Non-entry of the amendment if the non-compliant amendment is a preliminary amendment or supplemental amendment.

Notice of Non-Compliant Amendment (37 CFR 1.121)

Continuation of 5 Other:

In Applicant's most recent Amendment of 23 March 2009, there was confusion as to which amended specification was last entered. Applicant has withdrawn the amended specification of 27 October 2008, under the impression that only certain paragraphs of the amended specification of 29 April 2008 were entered and other paragraphs were not entered. Then Applicant further amended the specification, however, it is unclear now which specification the most recent amendments are addressing. Furthermore, it is unclear which specification the amended claims of 27 October 2008 are intended to reflect.
